T&E TOOLS

SCREW, BOLT & STUD EXTRACTORS

No.8967
5Pc. Spriral Type Screw Extractor Set

This is a professional quality screw extractor. Made of hi-grade heat treated alloy steel. Quick and easy way to remove broken screws, pipes, bolts and studs.

Sizes: #1, #2, #3, #4, #5

Straight Flute Type

No.8962
5Pc. Screw Extractor Set

Will Work on Left & Right Hand Threads

Sharp undercut edges provide a solid grip on broken studs, set screws, pipe and Alemite fittings. These screw extractors do not expand the screw whilst turning.

Sizes: #1, #2, #3, #4, #5

No.8526
Stud Remover

Flush type cam style 1/2" square drive stud remover. The tighter the stud the more firmly the tool grips. Made from high grade, heat treated alloy steel.

Capacity: 1/4" to 3/4"(6 to 19mm)

8526-R Replacement Knurled Roller
