10 TPI HSS-Bimetal Holesaws

Fine Tooth Cobalt M42

- M42 material for increased cutting life
- Fine tooth to prevent stripping - perfect for sheetmetal and tubes including stainless steel
- 8% Cobalt
- Quick, precise and effortless cutting of holes in steel, stainless steel, copper, wood (including nails), plywood, veneers, melamines, plastics, pipes, tubing and more
- Re-sharpenable
- For use with hand and pedestal drilling machines
- Solid base allows a stronger thread giving greater strength and stability whilst reducing the risk of stripped threads and inserts
