# Drill Longer, Easier

## HSS-Co Core Drills

- HSS with 5% Cobalt: Longer lifespan
- Multi-fit shank: Fits all magnetic-based drills
- One pin for all sizes: Convenient versatility
- Thinner wall: Faster drilling, less power needed

# HSS-Co Core Drills

**5% Cobalt 30MM depth**

- Universal pin: Fits diameters 12MM to 50MM
- Durable: High Speed Steel with 5% Cobalt for drilling harder materials
- Versatile compatibility: Fits all magnetic-based drills, including quick change systems

# Level Up With TCT Drills

## TCT Core Drills

TCT core drills cut hardened steel fast and last longer than standard HSS drills. Their toughened tungsten edges can handle high levels of wear.

- Toughened tungsten edges last longer than HSS core drills
- Ideal for magnetic drills where others burn out fast
- Cuts hardened steel, stainless, Bisalloy, and more

# TCT Core Drills
