Red Light Illuminates & Audio Beep Sound Alerts for Deeper Holes

Spring Loaded Ø10mm Ball

Spring Loaded Ø10mm Ball Shown

A valuable setting up tool for all machine shops and is excellent for quickly locating work edges accurately on milling machines alike.

- Accuracy within 0.005mm
- Bright red LED light illuminates in conjunction with a loud audible beep sound when prob touches conductive work piece
- Spring-loaded safety ball end that returns precisely back to the position when ball breaks away from ball seat
- Ø10mm hardened & ground ball end probe for continuous accuracy
- No need to rotate while measuring or finding edges

Includes

- 1 x A23 battery
