Metal Working Fluids

Neat Oil Comparison Table

	Type	Oil Type	Viscosity
XDP116	MQL	Vegetable	8.7
XDP120	MQL	Vegetable	32
XDP135	Machining	Mineral	14
XDP605	Grinding	White Oil	6
XDP900	Machining	Mineral	22
XDP905 Fluid	Machining	Mineral	49
XDP705 Fluid	Food Grade	White Oil	
XDP905 Paste	Grease	Synthetic	
XDP905 Spray	Spray	Mineral	
XDP905 Foam	Foam	Mineral	

Metal Working Fluids

XDP905 Range

Revolutionise how you do Cutting, Drilling and Tapping or use lubrication in high pressure applications. XDP 905 - high performance Paste and Oil in easy to use applicators make any job easier ensuring you get up to 5 times tooling life.

Metal Working Fluids

XDP905 Paste

Available in mess-free application brush

XDP905 Paste is a high-performance neat product for medium and severe cutting operations (drilling, tapping, cutting, etc.). It is suitable to machine ferrous and non ferrous metals. XDP 905 Paste provides exceptional film strength, adhesion and extreme pressure properties. It has highest resistance to water and corrosion, and is an excellent anti-seize. It comes in an innovative no-mess tube with a heavy-duty industrial brush attached to it. Simply squeeze the tube and apply the paste mess-free to where it's required. The paste also comes in a traditional tub for easy dipping

Benefits:

- Chlorine-free technology
- High performance
- Outstanding tool life
- Reduces wear and friction
- Protects against corrosion

Size	Code
200G TUBE	83905-200
500G TUB	83905-500
5KG TUB	83905-5

Metal Working Fluids

XDP905 Spray

Easy Spray Application

XDP905 Spray is a high performance neat oil for medium and severe cutting operations (milling, grinding, drilling, tapping, broaching and general cutting on lathes). It's suitable for cutting steel, stainless steel, low and high steel alloys, cast iron, aluminum alloys materials and yellow metals like copper and brass

Benefits

- Low viscosity – ideal for deep boring
- Reduces wear and friction
- Easy application
- Protects against corrosion
- Increases tool life up to 5 times
- Chlorine and heavy metals free technology

Size	Code
400G	84905-300

Metal Working Fluids

XDP905 Foam

Ideal for vertical drilling - remains on the cutting tool and metal machining

XDP 905 Foam is a cutting, drilling and tapping oil that is the ultimate performer in high pressure applications formulated for ferrous and non ferrous metals, great on stainless steel. XDP 905 Foam is a highly formulated semi-synthetic cutting oil - the latest development in extreme pressure cutting and tapping oils. XDP 905 provides exceptional film strength, adhesion to cutting edge, high speed applications, highest resistance to corrosion, and is ideal in deep boring and drilling applications. It is Chlorine and Sulphur free. Contains mineral oil for extra lubricity & low consumption - can therefore be used as minimum quantity lubricant.

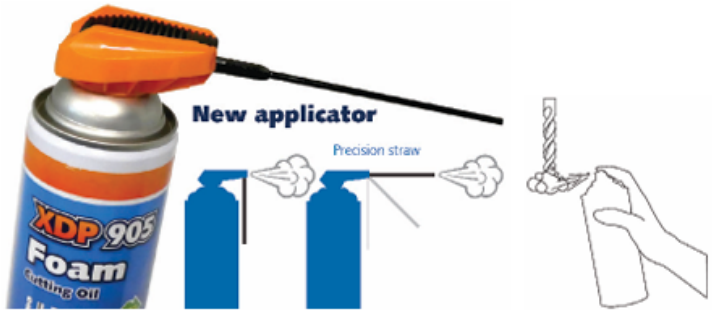

Benefits

- Foam thoroughly coats cutting tool
- Increases tool life up to 5 times
- Reduces wear and friction
- Protects against corrosion
- High residual lubricant
- Easy application foaming action
- Penetrates deep into the cut
- Promotes a superior finish
