Compressor Selection Guide

After many years of consulting the Australian market we have designed and developed the Peerless Black Range.

From our slow revving Oil less pump at 1350RPM through to our slow revving Alloy pump they produce some of the highest Free Air Delivery performances compared to anything else sold in the Australian market. Get the right Air Compressor that you can trust to do it right the first time!

Do it right and buy a Peerless!

www.peerlessproducts.com.au

STEP 1

Go to the Peerless Website www.peerlessproducts.com.au & select "Find the Right Compressor"

STEP 2

Select the relevant Industry.

STEP 3

Select which Tool type is used.

STEP 4

What Drive type do you want your compressor to have.

STEP 5

How frequently is the Compressor going to be used?

Recommended Products

RESULTS

Once completed a list of recommended products suitable to the selections made will appear. This is a great starting point when wanting to know more information and give you a guide to what Compressors you should be considering.

00092 P13 Portable, 240LPM, 10AMP

The P13 is a great compact sized air compressor delivering 240LPM, 2 outlets, 1 through a water trap regulator and the other out the 1/4" tap off the tank, common brands just have the one.

Solid wheels with a removable handle to make this even more compact along with a huge 5 year pump warranty!

00097 P14 Portable, 275LPM, 10AMP

Slow revving cast iron pump (853RPM) making this machine super quiet compared to other brands in the market.

2 outlets - 1 through the water trap filter regulator and the other 1/4" as main tank pressure.

Solid rubber wheels and metal belt guard making this one tough machine for any application with the 5 year pump warranty to back it up!

SINGLE PHASE, HONDA PETROL
& 415V ROTARY SCREW

Peerless Black 14000 220 LPM - Free Air Delivery

The Peerless Black 14000 is a great entry level belt drive air compressor, this runs super quiet and this is due to the pump only revving at a 895RPM! With all air compressors you should pay close attention to the pump RPM, if its RPM is over 1500-1800RPM you're over working your pump - would you drive your car in second gear at 100km/h?

just some of the failures that can occur.

This light industrial air compressor is designed for the building industry and home handyman, its unique design with castor wheels on the front and pneumatic wheels on the back makes it very easy to move from job to job.

Full Industrial 950 - 1100 LPM - Free Air Delivery

NEW

In conjunction with the huge success of our Peerless Black and Rotary Screw Compressor Range we are launching a range of 10HP Peerless Black Rotary Screw Compressors.

These compressors will feature;

- German made Rotorcomp Air End
- Schneider Electric Components
- Intelligent Touch Screen Control System
- Local manufacturer
- Super Quiet at 65 dBA
- Australian Compliant Pressure Vessels
- High efficiency Oil / Air Separator

These units require three phase power and when looking at a rotary screw compressor you always need to make sure you have an appropriate power supply (always get an electrician to check first).
