

## Truckies Series

### PHP15 High Pressure Belt Drive

5 YEAR PUMP  
1 YEAR MOTOR  
WARRANTY

The PHP15 is a 3.5HP two stage, high pressure compressor capable of running up to 175PSI. Two stage means that the pump has two low pressure heads which then feed into the high pressure head. These machines are fantastic for tyre inflation i.e. truck tyres or applications where large volumes of air at high pressure is required. The advantages of a two stage compressor are that you do not lose volume of air at higher pressure. The air temperature is some 40% cooler than the standard type of air compressor therefore producing less condensation (moisture). These models come with all the standard features as the P17 and P14 but feature a High Pressure Filter Regulator with an auto water drain feature.

HIGH PRESSURE

110L Fat Boy & 110L Vertical Models also available

#### Dimensions

- PHP15 (00100)  
1060MM x 450MM x 750MM
- PHP15FB (00105)  
1300MM x 450MM x 750MM
- PHP15V (00108)  
700MM x 450MM x 1500MM

CODE	MODEL	MAX PSI	MOTOR HP	PUMP TYPE	PUMP RPM	AMPS DRAW	TANK
00100	PHP15	175	3.5	2065T	1132	13	55L
00105	PHP15FB	175	3.5	2065T	1132	13	110L
00108	PHP15V	175	3.5	2065T	1132	13	110L

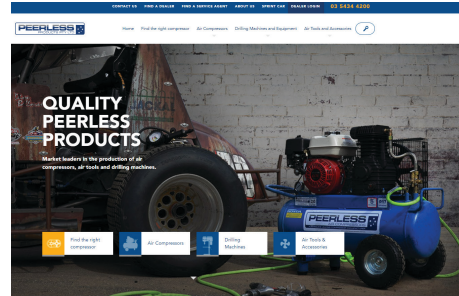

BUILT FOR TRUCK TYRE INFLATION

## Compressor Selection Guide

Peerless Products selection guide is to help assist in selecting the correct air compressor.

It is very important when selecting an air compressor that you understand the basic working principals. The faster you run the pump the hotter the pump gets, making the machine less efficient. Peerless Products branded compressors are designed to run at 60-85% duty cycle.

Do it right and buy a Peerless!

www.peerlessproducts.com.au

### STEP 1

Go to the Peerless Website [www.peerlessproducts.com.au](http://www.peerlessproducts.com.au) & select "Find the Right Compressor"

### STEP 2

Select the relevant Industry.

### STEP 3

Select which Tool type is used.

### STEP 4

What Drive type do you want your compressor to have.

### STEP 5

How frequently is the Compressor going to be used?

### Recommended Products

00092 P13 Portable, 240LPM, 10AMP

The P13 is a great compact sized air compressor delivering 240LPM, 2 outlets, 1 through a water trap regulator and the other out the 1/4" tap off the tank, common brands just have the one.

Solid wheels with a removable handle to make this even more compact along with a huge 5 year pump warranty!

00057 P14 Portable, 275LPM, 10AMP

Slow revving cast iron pump (853RPM) making this machine super quiet compared to other brands in the market.

2 outlets - 1 through the water trap filter regulator and the other 1/4" as main tank pressure.

Solid rubber wheels and metal belt guard making this one tough machine for any application with the 5 year pump warranty to back it up!

### RESULTS

Once completed a list of recommended products suitable to the selections made will appear. This is a great starting point when wanting to know more information and give you a guide to what Compressors you should be considering.

### P14 Belt Drive 275 LPM - Free Air Delivery

This is the biggest single phase 10AMP machine on the market producing 275 Litres per minute of free air delivery. This out performs most of our competitors on the market and with the 5 year pump warranty you know you have invested in the right machine to do your job.

This compressor will only run a small sand blaster, 1/4" die grinder or a small air sander intermittently, for continuous operation you will require a P17 model or better.

### P17 Belt Drive 320 LPM - Free Air Delivery

The P17 single phase air compressor is one of the biggest machines on a 15AMP plug producing 320 litres per minute of free air delivery.

Cast iron crankcase, stainless steel valves and a slow revving pump also makes this also one of the quietest on the market.

Comes with 2 outlets, one out from the water trap regulator and one directly out from the tank for full tank pressure.

### P20 High Flow Belt Drive Fat boy 340 LPM - Free Air Delivery

The P20 High Flow Fat Boy is one of our most popular models for spray painting workshops as it produces large volumes of air at low pressure. This is ideal for jobs where higher pressure isn't necessary.

Being the biggest single phase compressor on one power line it is important to make sure you have the correct power, otherwise it may cause motor failure.

PUMP UP TIME TO 100PSI: 1.40 - 1.55 MIN

### Peerless Twin Motor / Twin Pump 550 LPM - 650LPM - Free Air Delivery

The PT series is designed using two pump and motor top plates coupled on a 150-190 litre air receiver. The pumps are designed to restart 5 PSI apart and require two 10 AMP or two 15 AMP power lines (draws 2 x 10 amps or 2 x 13 amps) back to your fuse box to operate this machine. It is very important to ensure that this machine is wired in correctly as failure to do so will cause motor failure.

This series offers huge amount of air flow while only using single phase power.

2 x 10 AMP  
2 x 15 AMP

**KEEP IN MIND**  
When selecting a twin motor machine, please make sure you have suitable power supply. By not using the right power supply you will blow capacitors, even worse, your motor will seize and will void warranty.
