Natural Zeolite Absorbent

A natural absorbent for use with oil, petroleum and chemical spills of liquid and vapour

P/N: FXZEO-9 - 14 Litre (9kg) bags
P/N: FXZEO-15 - 22 Litre (15kg) bags

is a rock type absorbent for use with oil, petroleum and chemical spills of liquid and vapour. It is a natural product formed due to intense volcanic activity about 250,000 years ago.

Due to its large internal surface area, it is faster acting & absorbs larger quantities than most other "kitty litter" types of absorbent. Its high Cation Exchange Capacity allows vapour and odour absorbency.

Being a light weight clay, it is easy to handle, but not too light that it can't be used in windy or draughty outdoor conditions.

- **Universal Absorbent**
- **Fast Acting**
- **100% Natural**
- **Workplace & Ecology Safe**
- **Absorbs liquids, vapours and odours**
- **Carefully screened particle size for maximum surface area contact with spill**
- **22 Litre bag weighs 15 kg to comply with OH&S safe lifting requirements**
