## ALEMLUBE AUTOMOTIVE PREMIUM MODULAR WORKSHOP FURNITURE & STORAGE SOLUTIONS

The AlemLube Automotive Premium Modular Workshop Furniture series offers an extensive selection of robust adaptable garage workbench & storage solutions designed to meet the demands of any workspace.

**Custom Solutions:** AlemLube offers the option to contact them for bespoke solutions or unique configurations tailored to your specific needs. Whether you're setting up a new garage workshop or upgrading an existing one, the AlemLube Automotive Premium 8000 Series delivers the strength, versatility, & customisation needed for a high-performance workspace.

**Sturdy Construction:** The range boasts a larger footprint with 600mm deep benchtops, crafted from extra-thick steel to withstand even the toughest garage environments. High-quality drawer runners ensure smooth operation & durability.

**Modular Flexibility:** Each unit is designed to join seamlessly with others, allowing you to create a customised, free-standing garage setup. Whether you need compact workspace or a comprehensive solution, you can scale up as needed.

**Easy Assembly:** The workbench & storage units come with clear instructions for quick and straightforward assembly.

# AAP OIL RETICULATION & COMPRESSED AIR SOLUTIONS

## THE ALEMLUBE ADVANTAGE

Alemlube designs and installs product delivery piping systems in automotive, commercial vehicle and Defence Force workshops adopting specialised industry experience in applying 304L grade stainless steel pipe and fittings.

304L grade stainless steel, that is not intended for potable water, is preferred over 316 grade when the presence of Molybdenum is not required in the specific application.

The resulting aesthetic and cost benefits are significant.

## FEATURES

- Etched with material type
- Etched with fitting size & thread type
- Supplied standard with FKM O Rings
- 100% automated manufacturing process for superior tolerances achieving  $\pm 0.2\text{mm}$
- ISO9001 accredited manufacturer

## BENEFITS

- User friendly installation
- Quick and easy installation
- Less training required in comparison to typical mechanical fitting & piping methods
- No requirement for expensive Non-Destructive Testing
- Only a pressure test to suit the piping system design is required

AAP-101-42

AAP-101-35

AAP-103-35

AAP-103-22
