## GREASE HEADER BLOCKS & ASSORTMENT KITS

## PRODUCT OVERVIEW

Alemlube is leading the way with easy to use, customisable greasing systems. Alemlube Grease Nipple Assortment Kits & Header Blocks offer a complete and reliable lubrication solution for agricultural, manufacturing, mining, marine and food & beverage applications.

### ALEMLUBE GREASE NIPPLE ASSORTMENT KITS

To streamline operations and improve field efficiency, Alemlube offers a comprehensive range of refillable grease nipple assortment kits. Each kit includes the most frequently used grease nipple types and sizes and are tailored for industry needs in agricultural, manufacturing, mining, marine, food & beverage, and in metric and imperial.

Packaged in durable, labelled, compartmentalised carry boxes, these kits provide convenient access, reduce equipment downtime, and support professionals with rapid, on-the-go maintenance solutions in the workshop or in the field. A key advantage of the Alemlube grease nipples is the inclusion of the Kinglok® method of construction, which ensures a secure, leak-proof mechanical joint for optimum grease flow and reduced maintenance issues. These nipples are trusted and specified by original equipment manufacturers (OEMs) worldwide. Designed and manufactured to international standards – DIN 71412, SAE J534, BS 1486, and JIS B1575 - by Kingfisher in the UK, the grease nipples included in each kit are durable, case hardened, zinc passivated and long lasting.

### ALEMLUBE 6000 SERIES HEADER BLOCKS

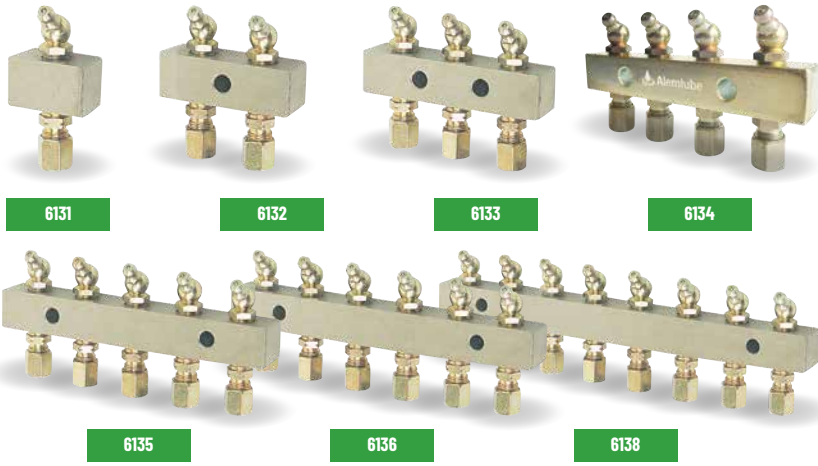

Alemlube's 6000 Series Header Blocks offer precision construction, excellent pressure tolerance and long service life. Available in one, two, three, four, five, six and eight point header blocks, they centralise your lubrication system to distribute lubricant from a main supply simultaneously to multiple lubrication points.

Easily customisable, Alemlube will work with you to achieve your ideal set up, from a simple header block with multiple ports to extensive progressive distributor blocks that will ensure your lubrication system operates in sequence. Grease header blocks are customisable, stackable and reliable, reducing the wear on your machinery and costly downtime.

## ALEMLUBE GREASE NIPPLE ASSORTMENT KITS

- **Engineered to global standards**  
Complies with DIN, SAE, BS & JIS
- **Built for durability**  
Case-hardened and corrosion-resistant
- **Leak-free performance**  
Secure Kinglok® sealing design
- **Kits tailored for industry needs**  
Kits for ag, auto, marine; in metric & imperial
- **Mobile and workshop ready kits**  
Ideal for use in the field or on-site
- **Customisable and stackable**  
Centralised system

# 6000 SERIES HEADER BLOCKS

PRODUCT NUMBER	OUTLETS	MATERIAL	FITTINGS SUPPLIED	GREASE NIPPLE ANGLE	FIXING HOLES	COMPRESSION FITTINGS
6131	1	Zinc plated mild steel	6mm	45° angle	1	6mm tube compression
6132	2	Zinc plated mild steel	6mm	45° angle	1	6mm tube compression
6133	3	Zinc plated mild steel	6mm	45° angle	2	6mm tube compression
6134	4	Zinc plated mild steel	6mm	45° angle	2	6mm tube compression
6135	5	Zinc plated mild steel	6mm	45° angle	2	6mm tube compression
6136	6	Zinc plated mild steel	6mm	45° angle	2	6mm tube compression
6138	8	Zinc plated mild steel	6mm	45° angle	2	6mm tube compression

# GREASE NIPPLE ASSORTMENT KITS

PRODUCT NUMBER	KIT DESCRIPTION	QTY	MATERIAL	FINISH	BATCH TESTED
L4674	Alemlube Agricultural Grease Nipple Assortment Kit	120	Steel (case hardened)	Chromated & Zinc Passivated	8,000psi (552bar)
L4675	Alemlube Imperial Grease Nipple Assortment Kit	101	Steel (case hardened)	Chromated & Zinc Passivated	8,000psi (552bar)
L4676	Alemlube Metric Grease Nipple Assortment Kit	100	Steel (case hardened)	Chromated & Zinc Passivated	8,000psi (552bar)
L4679	Alemlube Automotive Grease Nipple Assortment Kit	115	Steel (case hardened)	Chromated & Zinc Passivated	8,000psi (552bar)
L4680	Alemlube Stainless Steel Grease Nipple Assortment Kit	80	316 Grade Stainless Steel	N/A	-
G10090	EL Series Grease Nipple & Dust Cover Assortment Kit*	90	Steel (case hardened)	Zinc Plated & Passivated	-
G100100SS	EL Series Grease Nipple Assortment Kit*	100	303 Grade Stainless Steel	N/A	-

\*Please note the G10090 & G100100SS, as a EL Series product, is covered by a 1 year warranty
