

3M™ PELTOR™ External PTT FL4602-50

Technical Data Sheet

Description

The external Push-To-Talk (PTT) accessory is expertly crafted to complement the 3M™ PELTOR™ WS™ LiteCom Plus and Pro III series headsets. This innovative device offers enhanced flexibility and convenience by allowing users to position the PTT button in a location that best suits their operational needs, especially when the built-in PTT button on the headset is not ideally situated for the task at hand. Designed with user ergonomics in mind, this external PTT ensures seamless communication and improved accessibility, making it an essential tool for professionals who require reliable and efficient hands-free communication in demanding environments.

Features

- **Robust Construction:** Built to withstand harsh conditions, the FL4602-50 features a durable design that ensures reliable performance.
- **Ergonomic Design:** The adapter is designed for ease of use, with a user-friendly interface that allows for quick and efficient operation, even while wearing gloves.
- **Water and Dust Resistant:** Engineered to resist water and dust ingress, the adapter is suitable for use in outdoor and challenging conditions.
- **IP65 certified.**
- **Intrinsically safe (IS)** when used together with 3M™ PELTOR™ WS™ LiteCom Pro III Ex.

Standards and Approvals

3M Australia and New Zealand Pty Ltd., confirms that this 3M™ PELTOR™ product complies with the requirements of the relevant ACMA Standards made under the Radio communications Act 1992. These Standards are referenced in notices made under Radio communications Labelling (Electromagnetic Compatibility) Notice 2017.

This product is also in compliance with appropriate directives or regulations to fulfil the requirements for CE marking (EU).

For a copy of the declaration of conformity and any additional information required by the regulations, please contact 3M in the country where the purchase was made.
